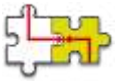
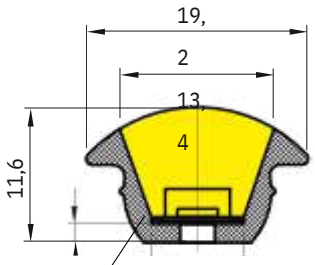
RGB BAR



Compatible with L and S profile (B680H)

LED RGB luminous profile for barriers.

Made of an LED silicon strip that perfectly fits into B680H barriers.
The strip's light is clear and uniform, guaranteeing ample visibility for the bar and the surrounding area. Can be used as a two-color traffic light (green/red).



- Power supply: 24Vdc
- Power: 10W/m (warning blue LED not in use)
- LED: RGB 60LEDs/m
- Cable exit: 3 wires
- Minimum cutting length: 100mm
- Degree of protection: IP65
