

# WIDESCAN

Opening, presence and security detector for industrial doors

Laser  
Technology

Intuitive configuration  
with 'LZR WIDESCAN' app

7 laser curtains: door opening, surveillance of the area in front of the door, protection people on the threshold. Laser technology filters parallel traffic, ignores pedestrians and is not affected by weather conditions (rain, snow).

- Max. detection range: depending on mounting height (adjustable)
- **Mounting height: from 2 to 10 m**
- Power supply: 12-24 Vac / 12-24 Vdc
- Dimensions: 200x150x100 mm

APE - 790 / 2108

Sensor WIDESCAN

**3D Coverage** - Accurately calculates the dimensions, speed and objects direction

**Door protection** - Accurately detects approaching or parked vehicles to prevent possible contact with the door
