

Flashing lights, led traffic lights/
Universal, LED column flashing light

CAP LED

NEW

The flashing lights **CAP LED 100** and **CAP LED 120** are an efficient and professional solution to increase the safety of car transit, providing clear and immediate luminous indications.

The CAP LED is made of two independently powered led strips: a **white continuous light** is emitted when the gate is closed, while an **orange flashing light** signals turns on when the gate is in motion. This system guarantees maximum visibility and reliability in any conditions.

CAP LED integrates perfectly with the upper part of any 100x100 and 120x120mm metal column.

The result? A light indicator that is discreet and elegant but highly visible when needed.

WHITE COURTESY
LIGHT WHILE THE
GATE IS CLOSED

WHEN THE GATE
IS OPENED USING THE
RADIO TRANSMITTER THE
CAP LED LIGHT CHANGES
FROM A WHITE AND
CONTINUOUS ILLUMINATION
TO AN ORANGE FLASHING
INDICATOR

CLICK

ORANGE
FLASHING LIGHT
AS THE GATE
MOVES

The CAP LED flashing lights are sturdy, practical and suitable for both residential and industrial settings. They are a reliable solution for visual signaling in automatic gate systems.

TECHINICAL DATA

Lamp type: LED

Light colour: white or orange

Power supply: 12-24Vac/dc, 230Vac

Energy consumption:

- **230V:** 2,5W (orange)
- **12V:** 12V-120mA (white)
12V-120mA (orange)
- **24V:** 24V-60mA (white)
24V-60mA (orange)

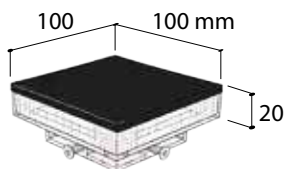

Degree of protection: IP54

Operating temperatures: -20°, +60° C

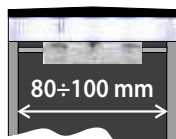

Measurements - CAP LED 100: 100x100x20 mm

CAP LED 120: 120x120x26 mm

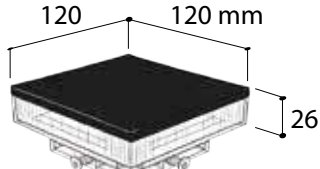

APE - 571 / 0110

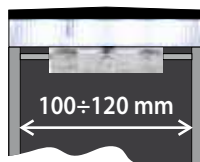

CAP LED 100
Flashing light compatible with
tubular columns between
80x80 and 100x100 mm

APE - 571 / 0212

CAP LED 120
Flashing light compatible with
tubular columns between
100x100 and 120x120 mm
